

SMOKING

Hedgehope Cottage and the communal gardens are strictly a non-smoking environment. This includes vapes and e-cigarettes. The charging of and such devices is prohibited within the property due to the risk of fire.

ELECTRICAL EQUIPMENT

All electrical equipment provided within the property as well as the supply itself is regularly maintained, inspected and PAT tested as per government guidelines for guest accommodation.

It is unreasonable for us to expect guests to only bring PAT tested items on holiday, but we ask that what you do bring is in good condition with no exposed wiring or faults.

We would ask that any device that requires charging is not left unattended or left on charge overnight. This includes, but is not limited to, mobile phones, laptops, gaming devices, batteries for mobility scooters or electric bikes.

Charging of EV cars, e-cigarettes, hover boards and electric scooters is expressly forbidden due to the fire risk of these items. Electric cars can be charged safely at the public chargers in the bus car park opposite the Post Office.
