

OUTSIDE AREA

There is a bench outside the front which is great for catching the afternoon sun and watching the world go by.

At the back, you will see a set of rattan furniture - this belongs to Hedgehope, so please feel free to make use of it. The back garden catches the summer sun most of the day. The cushions for the furniture are stored in the cupboard under the stairs - please ensure they are put back there so they don't get wet!

If you have a moment, please use the watering can provided to give the plants in the troughs a drink - it can get very dry here and it would be really appreciated if you could water them once during your stay.

The area at the back is communal and the log store and green coal bunker belong to the house next door (all marked CC). Everyone is quite relaxed about sharing the area, so please do be mindful of others using it.

The log store for Hedgehope is to the left of the back door and is clearly marked.

The bins for Hedgehope are to the left of the oil tank and are marked with what is accepted in each bin.

BARBECUE

A small charcoal barbecue is provided and should be placed outside and away from both the houses and the oil tank.

Care should be taken when lighting the barbecue and you should use solid firelighters rather than any liquid accelerant.

Children should be kept away from the barbecue at all times.

Spent charcoal and ash should be disposed of into the ash bucket and allowed to completely cool before being placed into the grey bin.

Please wash the grill and barbecue tools after use.
